CAREER OBJECTIVE

Frontend Developer with 1 year of experience (6 months internship + 6 months full-time) specializing in modern web technologies and multiple **CMS platforms**. Skilled in transforming design wireframes into functional, high-performance websites using **React, Shopify, webflow, squarespace and WordPress**. Dedicated to continuous learning and contributing to impactful business growth

EDUCATION

Grace College, BCA

06/2023 – 04/2026 | Rajkot

SKILLS

HTML, CSS, Wordpress, Squarespace, Webflow, Javascript, jQuery, React.js, Bootstrap, Github

PROFESSIONAL EXPERIENCE

Just Digital Gurus 🌐, Frontend Developer

04/2025 | Rajkot

Transitioned from intern to full-time **Frontend Developer** at Just Digital Gurus, building high-performance websites with **HTML5, CSS3, JS, and React.js**. I specialize in custom theme development across **Shopify, WordPress, Webflow, and Squarespace**, transforming creative wireframes into pixel-perfect, responsive realities with a focus on seamless user experience across all devices.

PROJECTS

EverFresh International 🌐

Designed and developed a responsive export business website using HTML, CSS, and JavaScript. Implemented basic SEO practices, user-friendly navigation, and optimized page structure to enhance online visibility and user experience for an international export company.

Hicon Seating Solution 🌐

Developed a high-performance web application using **React.js** to showcase a premium range of chairs and sofas with an emphasis on modern UI and smooth user flow.

ReachGiant 🌐

Developed a high-performance agency website using **Webflow**, featuring custom CMS structures to showcase both IT solutions and social media marketing services. Focused on creating a seamless, responsive user experience with optimized SEO architecture to enhance the agency's digital authority and client engagement.
